

Thurnby Mead Primary Academy

# English Policy

*Believe, Achieve, Celebrate*

Reviewed November 2024 by Beth Lovell

## Thurnby Mead Primary Academy

### Policy on English

#### 1 Intent

1.1 The study of English develops children's ability to listen, speak, read and write for a wide range of purposes, including the communication of their ideas, views and feelings. Children are enabled to express themselves creatively and imaginatively as they become enthusiastic and critical readers of stories, poetry and drama, as well as of non-fiction and media texts. Children gain an understanding of how language works by looking at its patterns, structures and origins. They use their knowledge, skills and understanding in speaking and writing across a range of different situations.

1.2 Our objectives in the teaching of English are:

- to enable children to speak clearly and audibly, and to take account of their listeners;
- to encourage children to listen with concentration, in order to identify the main points of what they have heard and to build on the thoughts of others;
- to show children how to adapt their speech to a wide range of circumstances and demands;
- to teach children effective communication, both verbal and non-verbal, through a variety of drama activities;
- to help them to become confident, independent readers, through an appropriate focus on word, sentence and text level knowledge;
- to develop enthusiastic and reflective readers, through contact with challenging and substantial texts that reflect a range of cultures and ethnicities;
- to foster the enjoyment of writing and a recognition of its value;
- to encourage accurate and meaningful writing, be it narrative or non-fiction;
- to know how to plan, edit and improve their written work.
- to celebrate and promote cultural diversity, respect, tolerance and equality through the class novels and additional texts displayed/promoted throughout the school.

#### 2 Implementation

2.1 At Thurnby Mead Primary Academy, we use a variety of teaching and learning styles in our English lessons. Our principal aim is to develop children's enjoyment and confidence as well as their knowledge, skills, and understanding. We do this through a daily lesson in which children experience whole-class teaching, group and paired work and individual learning. They have the opportunity to experience a wide range of texts and to support their work with a variety of resources, such as electronic texts, dictionaries, thesauruses and phonic resources.

In order for children to understand the value of reading and writing in all areas of learning, we also teach literacy skills in our cross-curricular lessons.

Children use ICT in English lessons when it will enhance their learning.

2.2 Children in all our classes have a wide range of abilities and staff provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies. In some lessons, we do it through differentiated group work. In others, we ask children to work from the same starting point

before moving on to develop their own ideas. We use classroom assistants to support and/or challenge children and to enable work to be matched to the needs of individuals.

### **3 English curriculum planning**

- 3.1 English is a core subject in the National Curriculum. We are following a novel based curriculum where we study a book and use this to base our writing outcomes and learning from.
- 3.2 In addition to this, targeted grammar learning is embedded into our units of work.
- 3.3 In order for children to make good progress in reading, their reading books are closely matched to their ability using Star Test which are taken termly. Accelerated Reader and MyOn have also been introduced to KS2 in order to enhance high-quality reading opportunities and resources.
- 3.4 Children in years 2 – 6 take part in 4 x 30 minute weekly shared reading session which focus on an area of reading comprehension that they need to develop. The children follow the I, We, You approach to ensure that children are developing the necessary skills to become proficient readers.
- 3.5 Class teachers complete a weekly plan showing the objectives to be covered in each lesson. This sets out the specific learning objectives for each lesson and the 'Steps to Success'. The Principal and SLT monitor planning on a regular basis.
- 3.6 We follow the Little Wandle phonics scheme in EYFS and Year 1 (and in year 2 onwards for the children that still require SSP). Please see our phonics policy for more information.

### **4 The Foundation Stage**

- 4.1 We teach English in Foundation classes as an integral part of the school's work. We relate the English aspects of the children's work to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five. We give all children the opportunity to talk and communicate in a widening range of situations; to respond to adults and to each other; to listen carefully and to practise and extend their vocabulary and communication skills. They have the opportunity to explore words and texts; to enjoy them; to learn about them and to use them in various situations.

### **5 Contribution of English to teaching in other curriculum areas**

- 5.1 The skills that children develop in English are linked to and applied in every subject of our curriculum. The children's skills in reading, writing, speaking and listening enable them to communicate and express themselves in all areas of their work at school.

Our revised curriculum provides opportunities to support the English curriculum through other subjects, some of which are grouped together in 'topics'. We include regular opportunities for children to read and write in all subjects, especially Topic, RE and Science.

In Mathematics, the teaching of English contributes significantly to children's mathematical understanding. Children in the Foundation Stage develop their understanding of number, pattern, shape and space by talking about these matters with adults and other children. Children in Key Stage 1 learn stories and rhymes that involve counting and sequencing. Children in Key Stage 2 are encouraged to read and interpret problems in order to identify the mathematics involved. They explain and present their work to others during plenary sessions and they communicate mathematically through the developing use of precise mathematical language.

## **Cultural Capital**

We always aspire to give our pupils access to authentic experiences, trips and visitors:

- Theatre groups visit School
- Librarians regularly visit to promote books in 'KS2 Book Talking' sessions.
- Our pupils are given opportunities to meet famous poets, authors and illustrators; listening to them recite and talk about their work (online and in person).

School is involved in reading initiatives that involve the wider community:

- Reading Cafes are held every year. Parents are invited into school to share books with their children and get advice from our school librarian.

## **6 English and ICT**

- 6.1 The use of ICT is an integral part of our literacy lessons. It can promote, enhance and support the teaching of English at word, sentence and text levels. It also offers ways of impacting on learning which are not possible with conventional methods, e.g. interactive and non-linear stories.
- 6.2 ICT is used at whole-class, group and independent levels. The screen projection of text enables it to be read and shared. The projection of a word processor permits the writing process to be modelled effectively. Groups can work at a computer and input text via a standard or overlay keyboard. Word banks or word grid software speed up recording. Software and online resources are used to support independent reading (text to speech) and writing (predictive word processors, word banks and spell checkers). A range of software is used to develop specific grammatical and spelling skills. Lessons can focus on what pupils have achieved using ICT, or ICT can provide the means of presenting their outcomes (via multimedia presentation or the school website).

## **7 English and Inclusion**

- 7.1 At Thurnby Mead, we teach English to all children, whatever their ability and individual needs. Through our English teaching, we provide learning opportunities that enable all pupils to make good progress. We strive to meet the needs of those pupils with special educational needs, disabilities, special gifts and talents, and those learning English as an additional language. For further details, see separate policies: Special Educational Needs; Disability Discrimination; Gifted and Talented Children; English as an Additional Language (EAL).
- 7.2 When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – including classroom organisation, teaching materials, teaching style and differentiation – so that we can take some additional or different action to enable the child to learn more effectively. Assessment using Bromcom, Writing Grids and other materials allows us to consider each child's attainment and progress against expected levels. This ensures that our teaching is matched to the child's needs.
- 7.3 For children with special educational needs we write Education and Health Care Plans (EHCPs) which may include specific targets relating to English. The plans are reviewed every term.

- 7.4 We enable all pupils to have access to the full range of activities involved in learning English. Where children are to participate in activities outside the classroom (for example, a theatre trip) we carry out a risk assessment prior to the activity to ensure that the activity is safe and appropriate for all pupils.
- 7.5 Teaching assistants provide help by providing:
- texts that children can more easily read and understand
  - visual and written materials in different formats
  - ICT and other technological aids
  - alternative communication, such as signs and symbols
  - translators and amanuenses
  - additional and/ or individual instructions
  - questions to support the learning of individuals and groups

## **Reading Interventions**

We provide reading interventions in KS2, in our endeavour to ensure that **all** our children succeed in reading.

- Targeted children take part in weekly reading interventions to give them an additional opportunity to develop their reading skills.

## **8 Impact/ Assessment for learning**

- 8.1 Teachers assess children's learning so that they can plan effectively and make judgements about children's progress. The assessments that teachers make as part of marking help them to adjust their daily plans. They match these short-term assessments closely to the teaching objectives. Written or verbal feedback is given to help guide children's progress and children are encouraged to take an active role in improving their work as they get older.
- 8.2 Teachers make summative assessments three times a year and these are used to track progress. The progress of each child is reported to parents and carers at Parents' Evenings and in end of year reports. The school leaders and managers and the next class teacher use assessments as the planning basis for the new school year.
- 8.3 Assessments in Autumn, Spring and Summer terms are based on assessment materials which are based on the national curriculum as well as children's work and entered onto Bromcom. Children undertake national tests at the end of Year 1, Year 2 and Year 6.

## **9 Resources and Reading for Pleasure**

- 9.1 There are a range of resources to support the teaching of English across the school. All classrooms have dictionaries and a variety of age-appropriate small apparatus. Children have access to the internet through their classroom computer, laptops and iPads.

9.2 In our quest to develop a love and passion for reading amongst our pupils, we always strive to ensure that they have access to enticing, relevant and current reading material.

- 'Accelerated Reader' texts for individual and independent reading in KS2, enhance high quality reading opportunities and resources within the classroom.
- Class libraries contain a large selection of fiction and non-fiction books to support children's individual reading.
- Our KS1 pupils borrow books from their class library to share and enjoy with their parents.
- Our subscription to the Library Services ensures that pupils can borrow from an extensive range of books in our Key Stage1 class book corners and fiction Library; our Key Stage1 / 2 non-fiction Library and from themed corridor displays.
- 'Story time' in our School Library takes place once a week for all our Reception and KS1 children
- Newspapers, comics and magazines are available for pupils to enjoy during the school day.
- KS2 pupils can borrow stimulating reading material from 'Book Talking' library service sessions.
- Library Service 'Project Collection' boxes provide all classes with an extensive range of non-fiction texts related to their topics throughout the year.
- We have a large number of 'big books' and story sacks.
- Children are also able to access resources from home online, e.g. Active Learn resources and MyOn.

## **10 Monitoring and review**

The Principal and SLT carry out a programme of monitoring and evaluation of the teaching and learning of English. Reports are made to the Governing body. Teachers are given a summary of the main findings as well as individual feedback.
